

It is my understanding that a radio station that I and my family listen to K-LOVE is in danger of being forced to operate as a LPFM. It is my hope that you will not require such stations to operate under LPFM. I live in Shelby, Ohio and am able to listen to K-LOVE to the Marion, Ohio area. I believe it is important to have such broadcasting available to my family that provides clean music and honors God. Most of our friends listen to K-LOVE and agree with its message of sharing God's love through music. We are a country that is struggling with morality, character, and integrity and I believe the stations like K-LOVE help to build these qualities that people so desperately need in their lives. Thank you for your time in reading my comment
